

# Baliraja Farm Fresh

Frozen Vegetables Exporter From India

Reliable Export Partner For Frozen Foods

# Our Processing Facilities

## Where Quality Meets Technology

Advanced infrastructure designed to deliver premium quality frozen vegetables with consistency, hygiene, and efficiency.

## Production Capacity

Our facility is equipped with advanced processing lines with a daily production capacity of 50 MT. The automated and hygienic processing systems ensure efficient sorting, cleaning, freezing, and packaging while maintaining the natural freshness, texture, and nutritional value of every product.

## Farmer Network

We have built a strong sourcing network of more than 2000 farmers across Maharashtra, enabling us to maintain a consistent supply of high-quality raw materials. Our close association with farmers helps us ensure freshness, traceability, and reliable procurement throughout the year.

## Cold Chain Infrastructure

Our advanced cold chain infrastructure includes 5 blast freezers with a capacity of 10 MT each and an IQF processing capacity of 2 MT per hour. The efficient freezing systems help preserve the natural taste, color, texture, and nutritional value of the products while maintaining international food safety standards.

## Cold Storage Facility

Our temperature-controlled cold storage facility has a total storage capacity of 2000 MT, ensuring proper preservation and long shelf life of products. The facility is designed to maintain strict hygiene and temperature consistency for safe and efficient export handling.

## Quality & Hygiene Standards

We follow strict quality control and hygiene practices throughout the production process to ensure safe, consistent, and premium-quality frozen food products that meet international standards.

## Why Our Facility Stands Out

### Fully Integrated Cold Chain

Reliable Farmer Network

Advanced High-Capacity Processing

Scalable Export Infrastructure

International Quality & Hygiene Standards

Combining advanced technology, strong sourcing networks, and modern cold-chain infrastructure to deliver premium frozen food products worldwide

Our frozen sweet corn products are processed using advanced freezing and cold-chain systems to preserve their natural taste, texture, color, and nutrition. Harvested from carefully selected farms, the products are hygienically packed and maintained under controlled temperatures to ensure consistent quality.
